

CAS LUBRICANTS

Compressor Oil

Our Compressor oil are high-performance synthetic oils designed to meet the stringent requirements of DIN 51506 VDL. Our careful selection of synthetic base stocks provides outstanding oxidation resistance allowing for extended drain intervals of up to 4000 hrs.

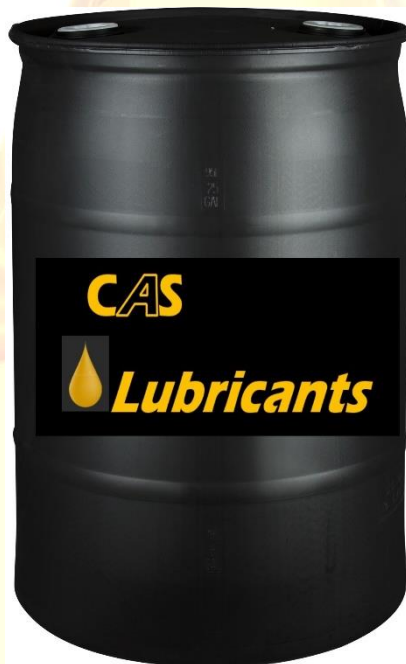

Full Synthetic
CAS C1

Semi Synthetic
CAS C2

Semi Synthetic
CAS C3

Our Full Synthetic (CAS C1) and Semi Synthetic (CAS C2) Compressor Oil are recommended for a wide range of high output oil-flooded, rotary vane & screw compressors operating under severe service conditions where normal compressor oils cannot deliver the service life.

Our Range of Mineral (CAS C3-68) Compressor Oil is generally used in oil-flooded vane and screw type compressors while CAS-C3 100 and CAS C3-150 are used in crankcases and cylinders of reciprocating compressors.
